Amendments/Clarifications to the CCTNS RFP and corrigendum Published

- All Prospective bidders are advised to go through the details of Corrigendum and Pre-Bid Query Responses along with RFP carefully for preparation of bid document.
- Bid documents submitted along with any variation, condition, assumption, suggestion with respect to terms and conditions of RFP and subsequent corrigendum will be liable for rejection.
- International project experience similar to domestic credentials, as required in the RFP will be treated valid. The value of the project shall be taken as the foreign currency equivalent to Indian Rupees (INR) as on the date of bid submission.

1. **AMENDMENTS TO THE RFP AND CORRIGENDUM**

S. No.	Reference	Existing provisions	Stands amended as
1.	RFP Corrigendum - 1, Point 2: CLARIFICATIONS TO THE RFP S. No. 13	Bidder needs to quote for MS Office as per the details mentioned in the section 9.8.1 of RFP Volume I	BSEDC will purchase MS office suite separately. However bidder needs to give details of MS office in Technical eForm (Sheet 6.6.21: Client location) under "Any other proposed ". Please note that <b>no price quote to MS office</b> will be part of financial bid evaluation.
2.	RFP Vol. 1 Section 9.8.8. Minimum Specification of the Centralized Infrastructure (Data Centre & DR): Enterprise Management System. Page No. 146	-	<b><u>Additional Information:</u></b> One of the essential requirements of EMS solution to manage and monitor entire IT infrastructure as well as regulating and ensuring proper SLA of the project. The proposed EMS solution should be seamlessly integrated with the EMS solution of BSWAN and that of SDC.
3.	RFP Corrigendum 1, Annexure II: Specification of SAN -	The storage should be configured with a feature which helps in removing the redundant blocks/files at the disk level to provide reclamation of the capacity. This feature should be block/file based and should be scheduled so that it can be used during the low peak hours.	<b><u>This point stands deleted</u></b>
4.	RFP Vol. 1 Section 9.8.8. Minimum Specification of the Centralized Infrastructure (Data Centre & DR): Router	Additional Requirement - Support for other interfaces	Router should support for ISDN BRI, PRI, gigabit fiber, 3G, CH E1 interfaces
